ITEM 1 Introduction	By whom
Cllr. Rosamond acted as chair in the absence of Cllr Diviani & Bruce Payne. The chairman welcomed everyone to the meeting and introductions were carried out.	
Workshop: Blackdown Hills AONB Alignment with Defra's 25-year environment plan Paper circulated at the meeting	
Discussion on how the AONB's work will support the delivery of Defra's 25-year environment plan through the AONB management plan, core & project work. Discussion papers attached to the minutes for reference. EH: 1. AONB Planning Officer should meet with newly appointed local authority planners and discuss best practice for working with the AONB. 2. The AONB 2019-2024 Delivery Plan should include an extra column showing how it relates to Defra's 25-year Environment Plan. JG: 1. Agreed to join any groups discussing woodland activity. 2. Column needs to be added to the paper to include villages & settlements as these are an important part of the landscape. MW: How to attract funding for all the projects needs to be included in the plan. Ecosystem Approach paper: A subgroup including TY, LT, EH, BP & DNW looked at the ecosystem approach within the AONB Partnership and as part of this outlined the natural capital we have in the AONB and what we know about it. This will then inform the 2019-2024 AONB Management Plan.
